- Designing & preparation of BOQ/BOM.
- Document preparation.

## Internship and Certifications

**Newton School** | Newton School Coding Boot Camp

February 2022 - Present

- Full Stack Web Development and Problem Solving
- Technical Stack Skills: HTML, CSS, JavaScript, React, MongoDB, Nodejs.
- Participated in various coding competitions held by Newton School
- Worked on various projects

## Projects

**Facebook Clone** | Newton School ([link](#))

September 2022 - September 2022

**Features:**

- Like and unlike functionality.
- Use of props, local API can be seen in this project.

**Tech Stacks:** React, CSS.

**Contribution:** Clone of Facebook home page in which data are extracted from local database. Like and unlike features are added to the posts. New components are added as dummy data is modified.

**TV maze** | Newton School ([link](#))

September 2022 - September 2022

**Features:**

- Toggle between actors and shows.
- Responsive UI and search on keypress feature.

**Tech Stacks:** React, CSS.

**Contribution:** Dictionary for details about famous movies and actors. Radio buttons are available to toggle between actors and shows. Search will be displayed on keypress.

**Weather Broadcast** | Newton School ([link](#))

August 2022 - August 2022

**Features:**

- Fetch API.

**Tech Stacks:** React, CSS.

**Contribution:** A weather broadcaster website provides essential information about daily and weekly forecasts, including temperature and precipitation. Also known as weather forecasters and meteorologists, weather broadcasters are key employees at television and radio stations.

**University Website** | Newton School ([link](#))

August 2022 - August 2022

**Features:**

- Responsive

**Tech Stacks:** Html, CSS.

**Contribution:** University website which displays the curriculums and courses available for students. Location and contact features are added on the last page via google maps. UI adjusts according to different screen sizes.

**Features:**

- Takes data from local system
- past month dates are marked as grey

**Tech Stacks:** Html, CSS, JavaScript.  
**Contribution:** A calendar is a particular system for dividing time into periods such as years, months, and weeks, often starting from a particular point in history. JavaScript adds multiple elements using loops.

**Features:**

- Fetch, Carousel, Hooks, React-Router, etc.
- Responsive UI.

**Tech Stacks:** React, CSS.  
**Contribution:** The Internet Movie Database (IMDb) is an online database containing information and statistics about movies, TV shows and video games as well as actors, directors and other film industry professionals.

Skills

Computer languages	Java, CSS, HTML, JavaScript
Software Packages	Node, MongoDB, React
Soft Skills	Research, Critical Thinking

- Co-Curricular Activities
- Taking parts in major events.
  - Research.
  - Attending workshops.
